Current Research Interests

My past and current research is focused on the question of the care of the self and the "techniques of the self'' in ancient Greek philosophy as well as in contemporary philosophy.

In the coming years, I plan on writing an extended English version of my forthcoming book *Qu'est-ce que le souci de soi?* under the title *Towards an Ethics of the Care of the Self. Contemporary Reappopriation of an Ancient Concept.* I also plan on publishing a revised version of my Ph.D. dissertation entitled : *The Political Asclepios. Study of the Care of the Soul in Plato's Dialogues.*

In addition to that, I am deeply interested in Gender Studies. My next research project will most probably be focused on gender norms and categories in antiquity.
